TIMOTHY P. CALLAHAN

SUPERVISORY PATENT EXAMINER

DETAILED ACTION

Allowable Subject Matter

1. Claims 1-7 are allowed.
2. The following is an examiner's statement of reasons for allowance: Claims 1-7 are allowed because the closest prior art of record fails to disclose a circuit as shown in Figure 2 wherein the phase comparator includes a first current control circuit having two switching units (PT3, PT4) connected between the first current source (31) and the output node (N2), and the two switching units (PT3, PT4) are designed to provide a first logic level as the result of the exclusive OR operation between the first signal (NA) and the third signal (NB) when at least one of the two switching units (PT3, PT4) is turned on according to a predetermined combination of the first signal (NA) and the third signal (NB) that are input in combination with the rest of the limitations of the base claims and any intervening claims.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

3. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
